SI JAM Labs

Advanced STEM Tutoring & Research Support

Bridges the gap between complex university syllabi and deep intuitive understanding

---

Languages of Instruction: English / Russian
Target Regions: US, EU, Armenia, Serbia, Montenegro
Core Target: University Students (BSc/MSc) & Advanced High Schoolers

Why SI JAM Labs?

Standard university textbooks (Rudin, Lang, etc.) often skip critical logical steps as "obvious." At **SI JAM Labs**, we specialize in deep-dive deconstruction of advanced topics. We identify and bridge the gaps in your background knowledge, accelerating your academic performance in STEM.

Expertise Portfolio

- **Advanced Mathematics:** Mathematical Analysis, Differential Equations, Linear Algebra, and introductory Lie Groups.
- **Physics:** Classical Mechanics, Electrodynamics, and Quantum Fundamentals.
- **Chemistry:** General, Inorganic, and Structural Chemistry.
- **Computer Science:** IT Infrastructure, Algorithm Design, and Software Engineering Core.

Tuition Plans & Packages (US / EU Market)

To secure a fixed slot in the laboratory schedule, classes are booked monthly via subscription packages:

1. **Intensive Tracker (8 Hours / Month)**
   Ideal for keeping up with fast-paced university syllabi and exam preparation.
   Rate: \$45 / hour → **Total:** \$360 / month.
2. **Semester Excellence Track (24 Hours / 3 Months)**
   Comprehensive fundamental mentorship throughout the academic term.
   Rate: \$40 / hour → **Total:** \$960 / semester (Available in 2 installments).
3. **Advanced STEM & Research Consultation (Individual Hourly)**
   Deep dive into highly specific scientific domains (e.g., crystal structures).
   Rate: \$65 – \$80 / hour.

Payment & Onboarding

- **Interim Payment Gateway:** transfer to VISA bank card (IDBank, Armenia) or MoneyGram (Until the European corporate bank account is finalized).
- **Policy:** 100% advance payment for the chosen monthly package. Cancellations or rescheduling require at least a 24-hour notice + 1 free instant reschedule monthly included
